SILENT HEKTIK – CDI changes

Hall sensor pick-up.

3 x hall sensor pick-up wires, these fit on the four-pin connector as follows (replacing the round screw in lead used on previous type).

CDI feed wires.

5 x wires now fit on the six pin plug direct into the CDI box (i.e. not via a male/female connector). As per the following wiring diagram.

Registered in England and Wales No: 7564334
